

Playdough

Recipe

2 _ cups flour

_ cup salt

3 teaspoons oil

2 cups boiling or very hot water (this helps to dissolve the Kool-Aid mix)

2 individual packages or 2 Tablespoons Kool-Aid Mix
(Hint: It helps dissolve the Kool-Aid in the water first).

Directions

1. Mix ingredients & add water
2. Add more flour if your playdough is sticky.
3. Once the playdough begins to thicken and becomes more difficult to stir, sprinkle some flour on your hands and use your hands to kneed the dough.
4. Use cookie cutters, garlic presses and or rolling pins for hours of messy fun!
